Veterinary Kahoot

Description: Students will use Kahoot to learn more about the veterinary team at the Texas State Aquarium. This Kahoot is designed to be played before participating in the Aquavision Gold programs on February 18 and 20, 2020.

Background Information

The Texas State Aquarium has a full time veterinarian and veterinary technician. Our vet team cares for all of the animals that live at the Aquarium as well as the wildlife patients that come to our Wildlife Rescue Center. Our team has a diverse skillset in order to care for fish, mammals, birds, reptiles, and more. Not only do they care for animals when they are sick or injured, but they also do routine checkups on the animals in our collection to ensure that they are healthy and have the best possible care.

Procedures

If you’ve never used Kahoot with your class before, visit https://kahoot.com/how-to-play-kahoot/ for more information and video tutorials.

To play the Kahoot as a class (your students will need smartphones, tablets, laptops, etc):
- Log in to your Kahoot account
- Click “Discover”
- Search for “Veterinary Medicine at the Texas State Aquarium”
- Click “Play”

To play the Kahoot as a Challenge (students can play individually at home):
- Open the Kahoot app on a mobile device or visit https://kahoot.it on a computer
- Enter Pin: 0606109
- Our Challenge will be open until 11:00 p.m. on April 19, 2020.
